

Use Case-specific needs for platform services

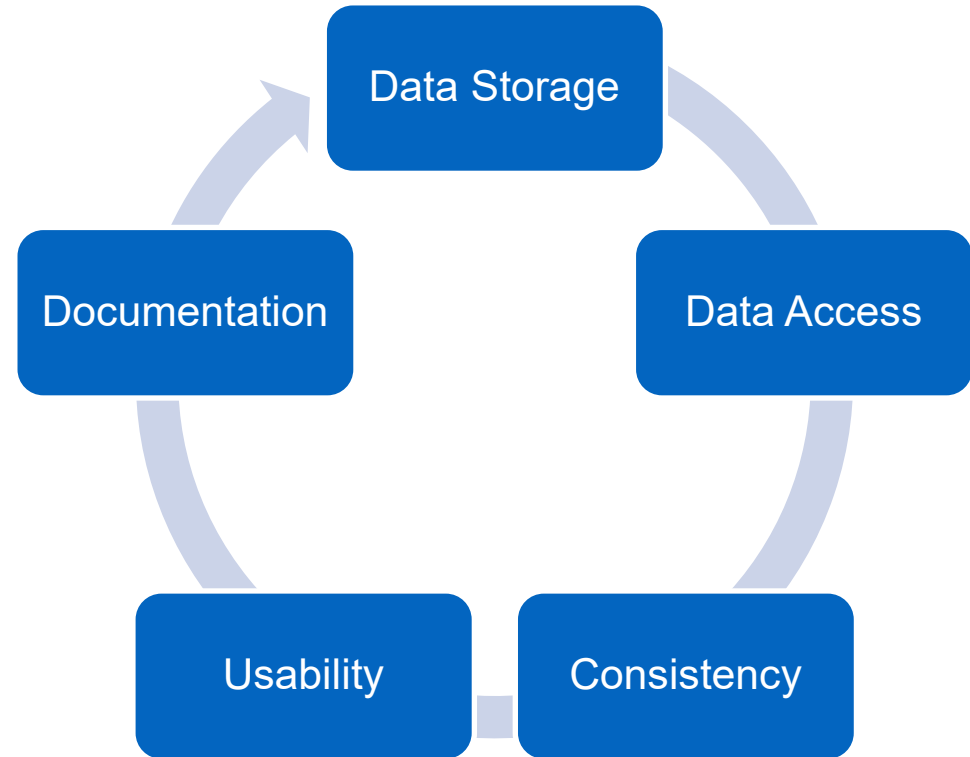

Overview

- Platform View
- Breakout Sessions

Construction

- Data Storage
 - Standard required
 - Mapping
- Data Access
 - Internal
 - External
- Consistency
- Usability
- Documentation

Requirements for Database

- Documentation
- Accessibility (API)
- Standardization still required
- Expert Input
- Knowledge

Overview

- Platform View
- Breakout Sessions

Starting Points for the Breakout Sessions

- Semantic Models/Ontology
 - UC specific Ontologies
- Controlled Vocabularies
- Auxiliary data
 - e.g.: national/regional statistics
- Presentation/Visualization
- APIs
 - Existing APIs
 - Ones that we should offer

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no. 883823.
